-  Air conditioning Services

OUR METHODOLOGY

UNDERSTANDING NEEDS

Experts from our concern would visit the site for a comprehensive understanding of the requirements and desire of the client. Extensive and detailed measurements of the project are gathered. Based on the client's aspirations we create diverse themes and concepts to transform the site into a pleasant and elegant home as envisaged.

DESIGN & ESTIMATION

The selected concept is visualized through 3D software with graphics rendition and is presented to the clients with approximate cost estimation. It offers ample clarity and transparency on the projected final output and necessary enhancements that would be required.

Material selection

Advancements in the interior industry have offered the users with a wide variety of options for varied budgets. We thoroughly maintain and consistently update an extensive database of materials with complete specifications and their suppliers. In accordance with the customers' preference the corresponding materials are selected with emphasis on texture, colour, technical specifications, brands, price with optimum period of delivery.

EXECUTION

Excellent execution is the key component in transforming a house into a dream home with life and verve as visualized at the design stage. Highly skilled personnel are employed for project execution and supervised by us in a very organized manner. Our fortes of execution are 'One face', 'Transparency', 'Speed' and 'Quality as promised'

HANDOVER

We take pride and honour in timely delivery of projects. Before handing over we ensure the aesthetics and all other allied works are in appropriate alignment, successfully executed with respect to multiple parameters to ensure quality delivery. Any existence of minor alterations or adjustments is fulfilled prior to delivering the dream home.

OUR TEAM

SRI HARSHA SURAPANENI

Founder and Managing Director
Woodz & Nails Interiors

Design is mostly intuitive for Sri Harsha Surapaneni. He masters the art of transforming spaces into beautiful, stylish, unique and functional ones. His signature designs inspired by travel, nature, architecture and art can be found in numerous residences & commercial spaces across Andhra Pradesh & Telangana.

His interest in creating exquisite interiors started with his research for the design of his own home, back in 2014. As he started working on design projects with friends & family, his interest turned into passion. He quit his corporate job and started his own interior design firm - Woodz & Nails Interiors. And the rest, as they say, is history.

As a creator of experiences, Harsha believes that every new project is an invitation to embark on a fascinating journey. He understands that interior design of a home should reflect the owners personality & perception of life. In order to achieve this, he places himself in the shoes of the clients to learn, understand & recognise their ideas, perceptions & desires to bring their dream home to life.

NAVEEN KUMAR

CEO
Woodz & Nails Interiors

Naveen Kumar's journey started off as an IT professional, he also explored various other career paths such as designing & animation. In 2002, he developed interest in 3D software & stepped into the world of architecture. He then moved into designing & execution of fabulous interiors.

Life took a turn with a work opportunity in Bahrain. He got a chance to work with international clients & gained hands-on experience with the latest technologies. He then partnered with Woodz & Nails to take interior designing in Andhra Pradesh & Telangana to the next level. He is extremely passionate about creating innovative designs that are both aesthetic & function. He truly believes that the key to success in interior designing is to offer top notch service with zero compromise in quality.
